## Guidance Notes

If you have any doubts as to what is the correct information, or need advice, please contact the secretary of the club to which you are applying.

There is a difference between:

Dogs Entered = The total number of individual exhibits entered

Dog Entries = The total number of entries that those exhibits have made.  
This number includes "run-ons" (repeat) entries.

For your questionnaire the relevant number is the **dogs entered**. You cannot count a single exhibit which appears in two classes as two dogs - that is two entries but still only ONE dog entered. When you take the information from your judging book do not count any exhibit whose number has appeared in an earlier class (usually given in light type or in brackets). The KC can severely sanction judges who fill in erroneous information on questionnaires so do be careful.

It is a KC REQUIREMENT that questionnaires should itemise the Number of Dogs Absent and Number of Actual Dogs Judged for all shows held after 1<sup>st</sup> January 1995

### **1. Name of Show & Venue**

Please give name of show society, venue, town, county and postcode.

### **2. Type of Show**

The following types of event may be used to claim hands-on experience numbers under both the current/ traditional approval system and the new JCF:

- Breed classes at Open Shows (= O)
- Breed classes at Limited Shows (= L)
- Mock/training classes at Breed Club shows (practical judging days) – only one occasion can be claimed and a maximum of 5 dogs (= BCM/TC)
- Dogs judged at KC approved Assessments, maximum of 5 dogs – only one occasion and a maximum of 5 dogs. Cannot be used in addition to mock classes. (= KC Assessment)
- Dogs judged at inter or intra-club Single-breed Matches (=SBM)
- Special Award Classes at Breed Club shows (= SAC)
- Supported Entry shows (= SEO)
- Overseas appointments (= O/S)
- Dogs judged at Single breed dog of the year competitions (= SBDoY)
- (Breed classes at Championship Shows without CCs)

### **3. Number of Classes**

A class which does not contain an exhibit cannot be counted in your number of classes. A class which contains ANY dog can be counted in your number of classes even if the only dog in the class is a "run-on" (repeat). See example below.

### **4. Number of Dogs Entered**

Give only the total number of individual exhibits entered. Do not give the number of entries. The number of dogs entered does not include run-ons (repeats). See example below.

### **5. Number of Absentees**

Give the total number of individual exhibits who were absent from your number of dogs who were entered. An exhibit is absent once and you do not count it being absent again if it was a repeat entry in a subsequent class. You count the number of individual absentees. See example below.

Example

In the Puppy Class you have exhibit numbers **414, 415, 416, 417, 418** (5 dogs)

In the Junior Class you have exhibit numbers **419, 416, 418** (only 1 new dog, number 419)

In the Novice Class you have exhibit number 416 (no new dogs)

In the Open Class you have exhibit **420, 421** and 419 (2 new dogs)

On the day exhibit numbers 414, 416 and 419 were absent.

On the day you judged exhibit numbers 415, 417, 418, 420 and 421

Number of dogs entered: 8 dogs were entered

Number of dogs absent: 3 dogs were absent

Number of dogs judged: 5 dogs judged

Number of classes judged: 3 classes.

Although the new dog (419) was absent from Junior there was a dog present in the class exhibit number 418. You can count the Junior class. As exhibit 416 was an absentee there were no dogs at all in Novice so you cannot count the Novice class.

## **6. Number of dogs of opposite sex judged**

This only applies if your appointment was for a single sex at the show (i.e. the show scheduled split sexes with two judges one for dogs and one for bitches). If you have judged a single sex you may have judged a dog or dogs of the opposite sex.

You will have judged the best of the opposite sex (when you and your co-judge decided Best of Breed) and the best of the opposite sex puppy (when you and your co-judge decided Best Puppy). If there was a Reserve Best of Breed prize and the BOB was of the opposite sex to the one you judged, you and your co-judge may also have called in the reserve to the best of sex to compete for RBOB.

Example

At the show you have judged bitches. In addition to the bitches

You will have judged the Best Dog (against the Best Bitch) to decide BOB

and the Best Puppy Dog (against the Best Puppy Bitch) to decide BP

**You have judged 2 exhibits of the opposite sex.**

When there was also a RBOB prize two alternative situations (i or ii) will have occurred

i) The Best Bitch went BOB

then you and your co-judge may have called in the Reserve Best Bitch to compete against the dog for RBOB

**You have judged 2 exhibits of the opposite sex**

(The Reserve Best Bitch was called in and you have judged her already).

ii) The Best Dog (rather than the Bitch) went BOB

then you and your co-judge may have called in the in the Reserve Best Dog to compete with the Best Bitch for RBOB.

**You have judged 3 exhibits of the opposite sex.**

Occasionally there may also be a prize for the best yearling, or the best graduate. In that event you would have judged the best yearling dog or best graduate dog against the bitch that you had already judged in her classes.

## **7. Number of Actual Dogs Judged**

Only give the number of dogs present and judged at that show. No dog can be counted more than once. The number of actual dogs judged is the number of individual exhibits you have had hands-on. That number does not include run-ons (repeats) or absentees.
