DT10 2AL.

The aim of the day: For members old and new with young dogs, to progress handlers beyond their current standard. To help new members understand what is required at a gundog working test.

Meet: 9.30am for a 10.00am start, aiming to finish around 2.30

Programme: We will divide into groups according to ability/aspirations.

The beginners and improvers groups will be provided with tuition according to their level of ability.

During a short break for refreshments the trainers will compare notes and high-light any difficulties which became evident in the first part of the day. These can then be worked on during the second part of the day. If nothing is evident the trainers will endeavour to introduce the next steps in your training programme, perhaps a drive or teaching your dog to jump whilst retrieving.

Refreshments:

Please make your own arrangements. There will be hot drinks available at the end of the day.

We will be holding a raffle and would be grateful for any donations, thank you.

Please ensure that you bring:

A picnic or camping chair, your whistle, lead, water for your dog (and training treats if you use them) and any refreshments. Clothing suitable for all conditions.

Please let me know if you would like to come along as a 'spectator'

Directions: details will be sent with confirmation of entry.
